When on Campus

Welcome Day

CUNEF organizes a Welcome Day for incoming students before the start of each semester. This is a great occasion to meet our community, get to know the campus as well as academic procedures and non-academic information.

Incoming students will also meet CUNEF students who are part of the Buddy program, which is a CUNEF club dedicated to welcome and integrate incoming students into our university. They are always a great help to help you discover our city and make the best out of your experience.

Buddy Program

As stated above, there are CUNEF students who cooperate in this club which is all about international students & giving them the best we can offer. This is the best way for incoming students to start discovering our local culture as they will get information from local students.

The buddy program is quite active and has always something to offer regarding meetings, travels, or simply having a casual talk at CUNEF's cafeteria.

Counselling service

The [counselling service](#) offered by CUNEF aims to help all students achieve their academic and personal well-being goals.

Helping them to sort out the different concerns they may have, is a priority for our institution, always within a framework of complete confidentiality.

Sports and volunteer work

These are activities that are performed outside of teaching hours, and which contribute towards the students' academic, professional, and personal development. CUNEF offers different types of activities, such as:

- [Debate club](#)
- [Volunteer work](#)
- [Sports](#)
- [Legal challenge](#)
- [Business case competition](#)

Sports & Clubs

CUNEF Universidad is not just academic life

Our humanistic vocation has led us to create numerous activities outside the academic sphere which undoubtedly help our students’ personal development.

At CUNEF Universidad there are extracurricular activities directed and coordinated by the students themselves, known as clubs.

Membership is completely voluntary and students have the opportunity to start new clubs that allow them to grow and develop personally and professionally.

STEM	Buddy Program
Investment	Stock exchange
Startup	Banking
Volunteer	Real State
ELSA	Debate
Google Developer	Sustainability
Art & Capital	

In addition, our students have the opportunity to join different sports teams and participate in university competitions and leagues.

Rugby	Football 11
Indoor football	Football 7
Volleyball	Basketball

Career services

We have in place over 1,600 cooperation agreements with leading national and international organisations in different sectors to help our students kickstart their career successfully.

Additionally, our Careers Department organises training and guidance workshops to help students determine their professional goals and successfully participate in recruitment processes, and provides support in general to enhance their employability.

To encourage communication between companies and our students, CUNEF Universidad works with two internship and first-job management platforms:

Career Center by Job Teaser, and EFMD HigherEd, which specialises in international processes and companies.

Moreover, CUNEF started organising an annual Employment Forum 19 years ago to provide an ideal environment for CUNEF students to interact with leading national and international organisations, with the purpose of helping them find their first job.

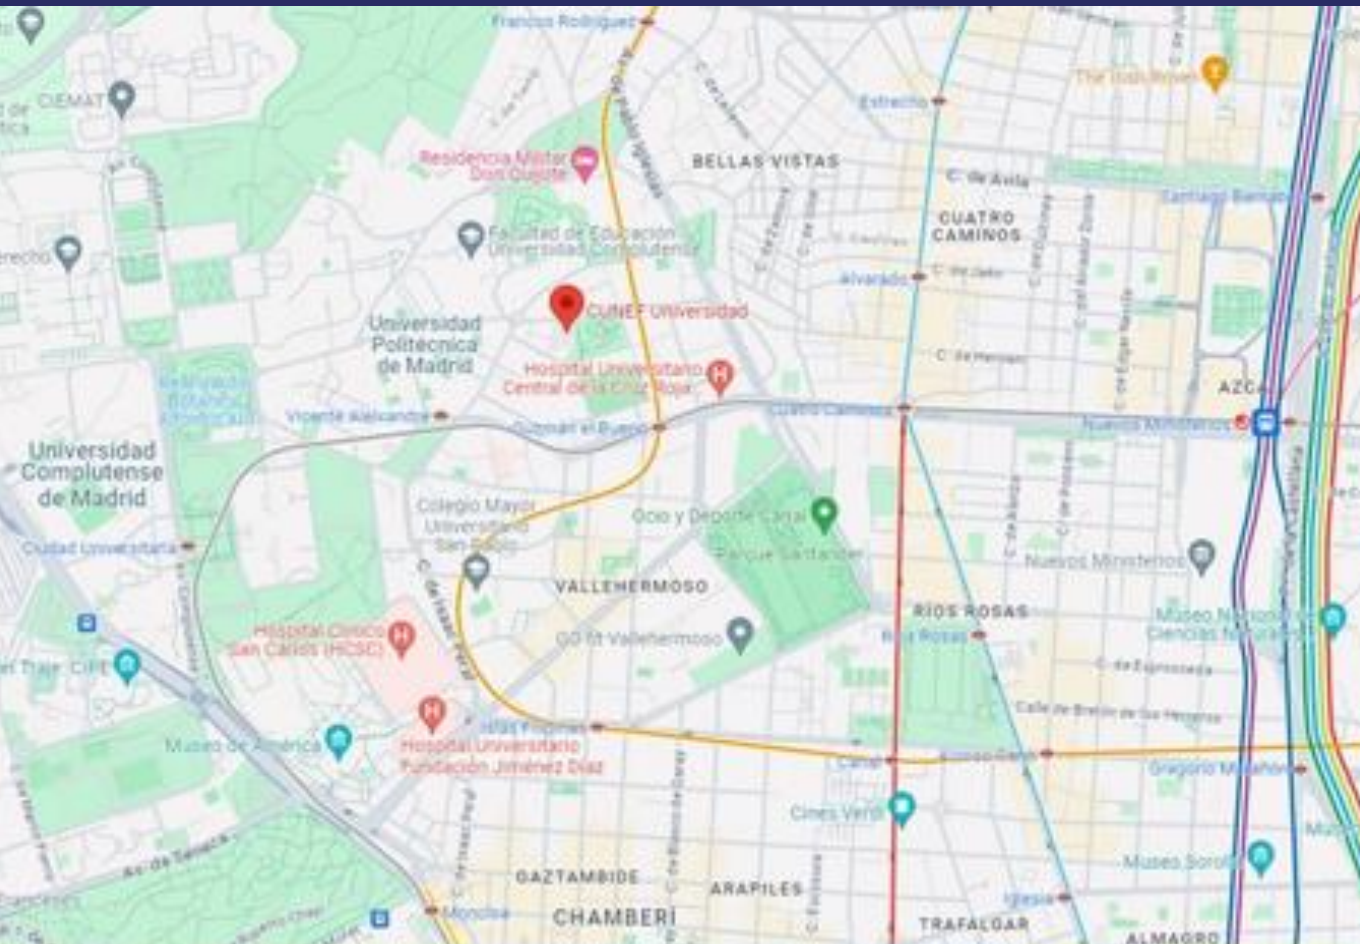

This Forum allows students to learn directly from prospective employers what profiles are in highest demand and what their recruitment processes consist of, as well as to find out more about participating organisations' corporate culture.

In short, we aim to give our students the chance to interact with these companies and institutions directly in one single space.
